

Mobile Command

First Responder

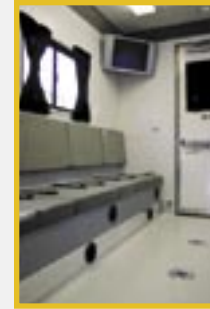

SUV First Responder Units can be utilized by a supervisor as a daily patrol vehicle that contains the added capabilities of quickly beginning the command process. Already in service, these vehicles can make the difference at a critical incident where every second counts.

Cabinet systems available for Command, Accident Scene Investigation, S.W.A.T., etc.

MCV 5500 Series

With floor plans very similar to our larger Diesel Fueled Step Van and Big Easy models, these 5500 Series Command Vehicles provide the same features in a heavy-duty, but economical, gas fueled chassis. Available with an optional over cab storage attic and up to a 20 ft. (6m) work area length, these vehicles provide an excellent platform for command operations at a reasonable price.

MCV 9000 Cutaway

The MCV 9000 is built on a Ford E-450 cutaway chassis with a 17 ft. (5m) long work area. Four wheel drive capability, excellent maneuverability and low cost make it a favorite of both large and small departments.

Alternate Floor Plans & Chassis available.
Call for detailed specifications, color brochure & pricing.

Mobile Command

The "Big Easy"

A new and unique vehicle design featuring a International Chassis and smooth side fiberglass body. With a Sterling Factory finished upgraded cab with high visibility window, mid-back Air-Ride seat and fully equipped dash, this vehicle drives more like a conversion van than a command center built on a large commercial platform.

All Sirchie Heavy-duty Command Centers are designed from the ground-up considering department desired features such as satellite internet systems, radio interoperability, 25 ft. (7.6m) telescoping video masts, remote controlled articulating scene illumination, etc.

Freightliner

Field proven reliability and durability, Freightliner-based command vehicles can be supplied in a wide range of weight ratings and lengths. Sirchie will work with your Fleet Services Department to specify the correct engine, transmission, and vehicle equipment for the application as well as to provide fleet uniformity.

For drawings and the Grant Coordinator for your area, contact our Technical Sales Department at: **(800) 545-7375**

Fully functional, easy-to-maintain galley.

Conference areas sized and equipped based on individual agency requirements. Large screen monitors, command boards, etc. available.

All radio and communication requirements addressed on an agency-by-agency basis.
