

Bomb Response

Sirchie's BRV-9000 Bomb Response Vehicle is an unmatched mobile platform built to handle all types of bomb response situations. Various vehicle designs available, including models with bomb robot ramps or hydraulic lift gates.

Custom accommodations for department supplied gear.

Available roll-up side access door with hydraulic lift allows for quick and easy Bomb Robot deployment.

BRV-9000/16

Available with four wheel drive, the above unit can be configured for the special needs of the Bomb Squad Commander. Let us provide you with layout designs used by other leading departments. Operations decks, compartmentalized storage and evidence examination areas are just a few of the features that are available to meet this demanding task.

BRV 5500 Series

BRV-5500/A

The BRV-5500 Series Bomb Response Vehicle provides the same durable construction as the 9000 Series in a larger format vehicle—up to 20 ft. (6m) work area length. Available with Chevrolet factory four wheel drive, and features such as the over-cab storage area, the unit can be used in all terrain and has added storage capacity.

Alternate Floor Plans & Chassis available.
