

Alcohol Enforcement

Effective as both a deterrent and an enforcement tool, the Model DUI-100 Alcohol Awareness and Enforcement Vehicle can be used as a patrol vehicle to reinforce a "Drink Responsibly" policy. Vehicle design also allows the unit to be utilized as a Mobile Arrest / Processing Unit.

Containment Cell

High visibility vehicles that are ideal for roadside sobriety checkpoints or at larger public sporting events where a mobile processing / booking vehicle may be required. Each vehicle has a holding cell for detainees as well as a processing area with accommodations for agency supplied breath alcohol test equipment.
