

Personal Protection in the field and in the laboratory

The conditions encountered at crime scenes are often dangerous to the involved law enforcement personnel. Department protocols usually include the use of personal protective equipment to keep the investigating officers safe and to preserve the integrity of the scene and the evidence encountered. Sirchie offers a full line of protective equipment including several types of:

- Masks and respirators
- Body suits
- Disposable gloves
- Eye protection
- Shoe covers

These items are designed to give protection to the investigator while aiding in the maintenance of the conditions encountered at the crime scene and in the prevention of contamination of evidence while transporting and analyzing it.

Sirchie also offers a broad array of hazardous item identification and disposal tools and products for safe cleanup of surfaces and hands after completion of your mission.

Personal Protection

The conditions encountered at crime scenes are often dangerous to the involved law enforcement personnel.

EDUCATION OPPORTUNITY!

We offer a 40-hr, on-site course that teaches law enforcement professionals the essentials of the collection, processing and preservation of evidence.

For more information see the Training Section of this catalog or visit our website at www.sirchie.com

HALF MASK PARTICULATE RESPIRATORS

This respirator provides breathing protection against dust, mists, and fumes that are common in many forensic applications. When fitted with a P100 (high-efficiency) filter, this mask offers exceptional protection against particulate and airborne pathogens (e.g. TB and most bacteria). The mask can also be fitted with an R95 (for dust and mist applications) filter. The mask is lightweight and reusable. Excellent for crime scene processing.

CATALOG NO.	DESCRIPTION	PRICE
SF0034H	Half Mask w/5 each P100 Filters	
SF0034D	Half Mask w/5 each R95 Filters	
SF0034HR	Replacement P100 Filters, 25 each	
SF0034DR	Replacement R95 Filters, 25 each	

MULTI-PURPOSE HALF MASK REGULATOR

Designed for applications that do not require full face protection, this mask combines a latex-free silicone seal with a formed plastic shell outer body. The soft silicone conforms to the shape of every nose. The combination of soft silicone and hard plastic ensures a comfortable, leak-resistant fit to a typically hard-to-fit area. The compact and lightweight unit is excellent for use at the crime scene where decaying matter and hazardous vapors may be present.

No. PU0010 mask with PU0011 filters

PU0013	Filter, Organic Vapor/P100 (99.7% of airborne particles), 1 pair	

ANTI-PUTREFACTION MASKS KITS

These low maintenance, reusable masks weigh less than 1/2 lb. and are made to fit any head size. Filtration is supplied by a chemically treated filter that has been NIOSH/MSHA approved for organic vapors, chlorine, hydrogen chloride, chlorine dioxide, and sulfur dioxide. The easy-to-use sliding suspension system makes them comfortable to wear. All masks are NIOSH/MSHA approved. Only one mask per person is recommended to eliminate the diseases spread by sharing face pieces.

No. PU001B Single Mask Kit and components

No. PU003B Double Mask Kit and components

The **SIRCHIE®** anti-putrefaction mask was designed to eliminate the overwhelming odor from a body undergoing putrefaction. Now an investigator may go about the job of investigating, fingerprinting, and photographing—no matter what the state of decomposition. Masks are perfect for use with any of our postmortem kits.

PU001B CONTENTS:

- 1- PU0010 Anti-Putrefaction Mask

ANTI-ODOR MASK WITH COMFORT VALVE

The multi-layer, high-performance filter material offers a superior level of filtration against nuisance organic vapor odors. Its ergonomic shape and nose pad provide additional sealing protection for various facial shapes and features an extra wide nose sealing pad. Its climate control comfort valve reduces breathing resistance. The continuous looped harness comes with a unique strap tension adjuster for user comfort. NIOSH Approved: N95—at least 95% filtration efficiency against solid and liquid aerosols that do not contain oil.

TYCHEM® COVERALL JUMPSUITS

SIRCHIE®'s line of protective jumpsuits are proven on-the-job daily, and they are specified routinely for crime scene investigators where hazardous materials must be handled. Manufactured from DuPont's rugged Tychem® material that has been quality coated with 1.25 mils of polyethylene, providing coveralls that meet Level B protection against accidental spills, sprays or splashes of acids or bases as well as many other chemicals, including those that may be present in clandestine drug labs or fire scenes where accelerants may have been used.

All seams are sewn and bound using a chain stitch that provides increased holdout of liquids and dry particulates.

Style TYV300 coverall with collar, zipper, open sleeves, and sewn and bound construction.

Style TYV400 coverall with collar, zipper, attached hood, boots, elastic wrist closure, and sewn and bound seams.

Biohazard Evidence Bags

Available in a variety of sizes to accommodate the type of evidence collected. Choose from the disposable bags that can be sealed with releasable ties or the Biohazard Adhesive Back Bags with a self-adhesive flap for sealing.

EASY TO USE:

Insert biohazardous waste.

Fold over adhesive flap, seal and dispose of bag properly.

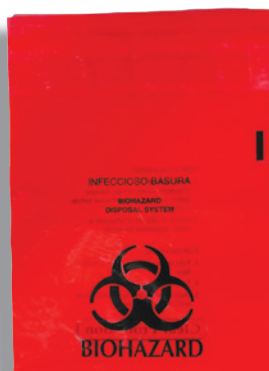

No. BDB3041 Biohazard Disposable Bag

DISPOSABLE BIOHAZARD BAGS

Today's crime scene and lab procedures require proper disposal of hazardous materials. **SIRCHIE®**'s biohazard bags will aid in this process. They are easily identified by their orange-red color and biohazard symbols. Use the 24" x 24" or 30 1/2" x 41" bags for larger items such as clothing. The larger bags have plenty of room at the top to be tied off or use SIRCHIE's ET100 Releasable Evidence Ties.

CATALOG NO.	DESCRIPTION	PRICE
BDB2424	Disposable Biohazard Bag, 24" x 24", 500 each	
BDB3041	Disposable Biohazard Bag, 30 1/2" x 41", 250 each	

BIOHAZARD ADHESIVE-BACK BAGS

These bags come with a self-adhesive back so they can be attached to many surfaces for hanging. Use the 9" x 10" bag for disposing of smaller items such as soiled gloves or bloody shoe covers. They also have a self-adhesive flap for sealing the bag when finished. Always dispose of any hazardous waste according to federal, state, and local regulations.

CATALOG NO.	DESCRIPTION	PRICE
BI0910C	Biohazard Adhesive Back Bag, 9" x 10", 100 each	

DISASTER BODY BAGS

These disaster body bags are super sturdy, 48" x 96" spun bonded olefin Tyvek® bags for temporary removal and storage of cadavers. They are a necessity at violent crime scenes, accidents, and disasters.

CATALOG NO.	DESCRIPTION	PRICE
DBB200	Disaster Body Bag, 48" x 96"	

Evidence Collection Tubes and Biohazard Labels

SHARPSTUBE™ SYRINGE TRANSPORT TUBES

Designed to hold a hypodermic syringe for transportation, these tubes are well-marked with bright orange-red international biohazard markings. One end of the tube contains a sealing material that will immobilize the syringe and prevent needle leakage. The 1" x 8" (2.5cm x 20.3cm) square construction allows for improved storage and handling.

CATALOG NO.	DESCRIPTION	PRICE
ECT2	Syringe Transport Tube, 1" x 8" (2.5cm x 20.3cm), 12 each	

EVIDENCE COLLECTION TUBES

In today's society, exposure to AIDS (HIV), Hepatitis, B and other blood-borne diseases is a deadly serious problem. Use **SIRCHIE®**'s clear plastic evidence collection tubes to protect evidence collection personnel. Available in two sizes for your convenience. The ECT1 tube utilizes an ethafoam stopper for immobilization of sharp objects such as syringes and are 8" in length, 1 5/16" in diameter with a 0.030" wall thickness. The ECT3 tube is perfect for holding larger types of evidence such as knives and multiple syringes. The ECT3 has two end caps and an ethafoam insert for protecting sharp ends. Tube is 3" in diameter, 12" in length and has a 0.035" wall thickness. Use **SIRCHIE's** BIO400 Biohazard Strips to properly seal and mark tubes.

CATALOG NO.	DESCRIPTION	PRICE
ECT1	Evidence Collection Tube, 1 5/16" x 8" (3.3cm x 20.3cm), 12 each	
ECT3	Evidence Collection Tube, 3" x 12" (7.6cm x 30.5cm), 8 each	

TELESCOPIC EVIDENCE COLLECTION TUBES

These tubes feature a telescopic length extension. All tubes are made from translucent polypropylene except for ECT4 which is clear PVC. Notches on the internal tube allow for telescopic expansion to fit contained evidence. A twist-lock mechanism on the round tubes retains the extended position while the hexagon end prevents rolling. The reusable tubes are rigid, durable, and resistant to humidity and oil.

CATALOG NO.	DESCRIPTION	PRICE
ECT4	Twist Tube, 4 3/4" to 7 1/8" (12cm x 19.8cm), 1.26" Dia. (3.2cm), 12 ea.
