

# Evidence Collection Tools & Kits

When you encounter physical evidence at a crime scene, it must be properly documented in its original state. Once it's documented, you must collect, identify, and preserve physical evidence according to protocols. This includes transportation in a manner that ensures the integrity of the evidence.

For you to properly handle evidence, you should understand:

- The different types of physical evidence
- How to collect and preserve each type properly
- Understand what the evidence can confirm
- Proper processing and application of the resulting information in an unbiased manner

We offer a broad range of tools to identify and retrieve physical and trace evidence, including precision tools, marking devices, vacuum kits, metal detectors, and a diverse range of evidence collection kits. These kits are for everything from DNA/physiological and trace physical evidence to entomology and arson evidence and investigation kits.

## Evidence Collection Course

Law Enforcement Professionals operate in an increasingly complex environment where budgets are tight, crime scenes are complicated, and the public expects investigations to lead quickly to justice. Our popular Evidence Collection Accelerated Training Class gives you hands-on experience in limited class sizes covering the scientific methods of collection, identification, evaluation, and preservation of physical evidence. Our students love the teach-do method of instruction and take their knowledge back to the field as lifelong Sirchie graduates.

## Evidence Collection Tools

### Stainless Steel Hemostats

Our hemostats are perfect for handling any piece of crucial evidence, documents treated by chemical processing for latent print development, and many others. Available in straight or curved and sized 5 1/2", 8", and 10".

No. HEMOS55	Straight Stainless Steel Hemostat, 5 1/2"
No. HEMOS8	Straight Stainless Steel Hemostat, 8"
No. HEMOS10	Straight Stainless Steel Hemostat, 10"
No. HEMOC55	Curved Stainless Steel Hemostat, 5 1/2"
No. HEMOC8	Curved Stainless Steel Hemostat, 8"
No. HEMOC10	Curved Stainless Steel Hemostat, 10"

### Pocket Multi-Tools

Always have just the right tool handy with this collection of all-in-one multi-tools. Each of these contains multiple tools to give you flexibility while at the crime scene.

No. MFT100	Gerber Splice Multi-Tool
No. MFT200	Gerber Suspension Multi-Tool
No. MFT300	Gerber Diesel Multi-Tool

### Evidence Grabber

Use this tool to grab evidence. At 32", it provides you a long reach with an easy squeeze grip.

No. EG32	Evidence Grabber, 32"
----------	-----------------------

### Evidence Scrape and Scriber

Perfect for scribing identification marks or scraping/retrieving evidence. Made of hardened tool steel and measuring 6 3/4".

No. KCP141	Evidence Scrape and Scriber
------------	-----------------------------

### Evidence Collection Tweezers

Prevent contamination of physical evidence with these tweezers. Available in plastic, metal or large 6 1/2" nickel-plated.

No. KCP249	Metal Tweezers, 12 ea.
No. KCP139	Plastic Tweezers, 12 ea.
No. KCP139D	Sterile Plastic Tweezers, 10 ea.
No. TWC65	Curved Point Nickel Plated Tweezers, 6.5", 1 ea.
No. TWS65	Straight Point Nickel Plated Tweezers, 6.5", 1 ea.
No. TWBS65	Blunt Serrated Point Nickel Plated Tweezers, 6.5", 1 ea.

### Disposable Scalpel

Perfect for scraping blood, paint, or other foreign matter from surfaces. Individually wrapped and ready for use.

No. KCP13810	Disposable Scalpel (#10 rounded blade), 10 ea.
No. KCP25110	Disposable Scalpel (#11 pointed blade), 10 ea.

### CSI Evidence Knife

This handy utility knife is perfect for use at the crime scene. It features 7 tools in one compact knife and measures less than 3 inches when folded. Includes lanyard ring for key ring attachment.

No. KCP309	CSI Evidence Knife

## Evidence Marking Tools

### Krime Kit

This kit comes complete with a pocket protector and four evidence marking tools. Includes: No. GL000 (Carbide Tip Scriber), No. GL001 (Diamond Tip Scriber), No. GL002 (Evidence Collection Knife) and No. GL004 (Retractable Ridge Counter).

No. KK100	Krime Kit
-----------	-----------

### Evidence Scribers, Knives & Ridge Counters

These identification tools are well-suited for field investigators and laboratory technicians.

No. GL000	Carbide Tip Scriber
No. GL011	Replacement Carbide Tip
No. GL001	Diamond Tip Scriber
No. GL010	Replacement Diamond Tip
No. GL002	Evidence Collection Knife
No. GL012	Replacement Blade, 5/16"
No. GL004	Ridge Counter
No. GL0051	Replacement Point

### Permanent Ink Evidence Marker

Writes permanently on everything and perfect for evidence labeling.

No. EMR1	Red Permanent Ink Evidence Marker
No. EMB1	Black Permanent Ink Evidence Marker

### Mechanical Evidence Marker

Writes easily on glass, polyethylene, metal, wood, and paper.

No. 611E	Mechanical Evidence Marker
----------	----------------------------

### China Marker

Mark glass, plastic, metal, wood, and paper with these markers.

No. KCP144	Black China Marker
No. KCP145	White China Marker

## Evidence Collection Vacuums

Investigators recognize a knife, gun or tool as physical evidence, but often the most useful types of physical evidence such as dust and microscopic fragments are not noticed and easily overlooked. Evidence vacuum sweepers can process large areas in a short amount of time and collect that microscopic evidence.

### Sirchvac Evidence Vacuum Sweeper

This unit has one function: to collect trace evidence at the crime scene. A single use filter eliminates cross contamination between crime scenes. The entire sealed filter assembly in its evidence bag is submitted to the crime laboratory for examination.

#### SV100 Features:

- Particle retention of 3 microns or greater
- Single-use filter assembly
- Six foot power cord
- Three foot vacuum hose

#### SV110/SV220 Contents:

- 1- SV110 or SV220 Evidence Vacuum Sweeper with 1 sweeper bag
- 2- 619E1 Filter Assemblies w/Crevice Tool Attachment
- 1- 3ft Flexible Hose
- 1- SVKC Professional Carrying Case, Molded Copolymer Carrying Case with Machined Foam Inserts; Dimensions: 19" x 11.5" x 10.5" (48.3cm x 29.2cm x 26.7cm); Weight: 7.5 lbs. (3.4kg)

No. SV110	Sirchvac Evidence Vacuum Sweeper, 110V AC
No. SV220	Sirchvac Evidence Vacuum Sweeper, 220V AC
No. SVBAG05	Vacuum Sweeper Bags, 5 ea.

### Trace Evidence Collection Filter Assemblies

These sealed one-time use filter assemblies come with a Crevice Tool Attachment or an Upholstery Tool Attachment and are designed to be used with the Sirchvac Evidence Vacuum Sweeper.

No. 619E1	Filter Assembly w/Crevice Tool
No. 619E2	Filter Assembly w/Upholstery Tool

### Evidence Collection Vacuum Kit

This is a complete kit for microparticle evidence collection. The kit includes a vacuum, a microparticle filter attachment, microfilters, vacuum extension tubes, crevice and floor tubes and a vacuum hose. Also included are vials and bags for evidence collection as well as identification tape.

#### SV110K/SV220K Contents:

- 1- SV110 or SV220 Evidence Vacuum Sweeper
- 2- 619E1 Filter Assemblies w/Crevice Tool Attachment
- 1- 6ft Flexible Hose
- 5- KCP149 Evidence Collection Vials with Caps, 3" x 1 1/4" (76cm x 3.2cm)

Evidence Vacuum Accessories

Evidence Vacuum Sweeper Filter Assembly

This filter was designed for use with our SV110 Vacuum Sweeper, and has a metal filter support screen which permits unobstructed suction.

No. 617E Evidence Vacuum Sweeper Filter Assembly

P.E.M. Polyester Monofilament Microfilters

Designed to be used with our No. 617 Evidence Vacuum Sweeper Filter Assembly, these non-woven fabric filters provide increased suction over conventional filter paper.

No. PEM01 P.E.M. Polyester Microfilters, 100 ea.

Microparticle Evidence Vacuum Adapter

This Evidence Vacuum Adapter eliminates problems of cross contamination, and fits most common vacuums. Once connected microparticle evidence is vacuumed into the adapter and collected into the enclosed petri dish style filter. After collection, remove the filter, cover with the included plastic lid and store in an integrity evidence bag until evidence can be analyzed.

No. 719E1 Evidence Vacuum Adapter  
No. 719RE10 Replacement Filters, 10 ea.

Repulpable Evidence Tape

Hair and fiber evidence are sometimes the only link between a crime and its perpetrator. You can apply the tape to suspicious areas and immerse in water. The hair or fiber evidence separates from the adhesive backing and you can recover it through filtering. Tape is 3" (76mm) x 180' (54.9m) long.

No. RET001 Repulpable Evidence Tape

Evidence Collection Lifters

Use this lifting device throughout the scene to collect evidence, such as dust & dirt particles, fibers, hairs and stains. Lifters are 6" x 15" x 0.005". White vinyl backers (12 ea.) are included for preserving microparticle evidence.

No. ECL100 Evidence Collection Lifters w/backers, 12 ea.

Metal Detection and Recovery Devices

Super Scanner V Hand-Held Metal Detector

One of the most recognized hand-held metal detectors in the world, the Super Scanner includes both audible and vibrating alarm options and extended battery life. It detects ferrous, non-ferrous, and stainless steel weapons, contraband, and other metallic objects.

MDWAND Features:

- Ultimate sensitivity: detects medium sized pistol from 9" distance; large knife from 6"; razor blades and box cutters from 3" distance; foil-wrapped drugs and tiny jewelry from 1".
- Self-calibrating: digital microprocessor technology eliminates the need for periodic sensitivity adjustments.
- Rugged, high-impact ABS case with reinforced coil compartment. Exceeds Mil-Std-810F (drop test) Method 516.5, procedures II and IV.
- Large 8" scan surface for quick, thorough scanning.
- No tools required to change standard 9V battery (included). Optional rechargeable battery kit available.
- Sharp audible alarm and bright red LED indicates the detection of metal.
- Momentary push button helps temporarily eliminate detection of nearby ambient metal such as rebar, metal walls.
- Three-color LED indication: Green LED indicates ON; Amber LED indicates LOW BATTERY; Red LED indicates ALARM.
- Battery: 9-volt, 1 ea. (included)
- Operating temperatures: -35° F (-37° C) to 158° F (70° C)

No. MDWAND Super Scanner V

CSI Pro-Pointer PinPointing Metal Detector

The CSI Pro-Pointer speeds the search and recovery efforts for crime scene evidence, such as weapons, shell casings, and projectiles. This highly-sensitive pinpointer has audible and vibrating alarms and requires no tuning.

MDBATON Features:

- Find evidence faster! Static detection (no motion required) speeds target recovery.
- Proportional audible and vibrating alarms increase in intensity based on target's proximity to quickly pinpoint weapons, shell casings, projectiles and crime scene evidence.
- Automatically adjusts: Microprocessor circuitry ensures maximum sensitivity with no tuning necessary.
- Pinpointing tip and 360° side scanning capability in one pinpointer. Scan with the side of the detector to quickly cover an area, then use the tip to precisely pinpoint the target.
- LED flashlight assists in low light recoveries.
- Woven belt holster: included to secure CSI PRO-POINTER® to standard size belts.
- Uses: Search walls and tight spaces for hidden items. Find metal pipes in walls or nails in drywall to locate studs. Check wood for nails before cutting with expensive tools.
- Scraping blade to sift through soil during target recovery.
- Water resistant: CSI PRO-POINTER® can be washed in running water or used in the rain.
- Battery: 9-volt, 1 ea. (included)

No. MDBATON CSI Pro-Pointer

Ground Search Metal Detector

Simple to operate, the ECMD250 features unparalleled performance for budget-minded departments and agencies. This advanced metal detector features a Target ID Legend designed to identify commonly sought targets in crime scene investigations. Carry Bag and Headphones are included.

ECMD250 Features:

- Graphic Target ID cursor.
- Accept/Reject notch for specific target detection and to ignore unwanted items.
- Electronic pinpoint for easy target recovery.
- Continuous target depth indicator.
- Sensitivity adjustments (8 levels).
- Battery condition indicator.
- Target ID legend with common crime scene targets (i.e. bullets, brass, silver, iron).
- ¼" headphone jack.
- 6.5" x 9" PROformance submersible searchcoil.
- Large, easy-to-read LCD.
- Microprocessor controlled with pushbutton controls.
- Audio ID Tones for target distinction.
- One-Touch operation.
- 3-piece disassembly to 24".
- Operating temperatures: 0° F (-17°C) to 130°F (54°C). Storage temperatures: -20° F. (-28°C) to 150°F (65°C).
- Batteries: AA, 4 ea. (included)

Forensic Entomology Kit

Insects recovered from human remains can be a valuable tool for toxicological analysis and DNA of the victim. Forensic entomologists can also use recovered insects to discover if the body was moved from the original crime scene, estimate the time of death, and recover information about the victim and the crime. This kit contains all the tools, chemicals, and containers you need to collect this evidence.
