# SIRCHIE® LIVE SCAN EDUCATION SOLUTIONS

Inform & Train Your Students on the Latest Biometric Collection Technology

Why Choose Us?

- Unparalleled Customer Service
- Affordable Maintenance & Support Options
- Convenient Onsite Training
- Available Print-only Options
- Mobility for Better Accessibility

### *What Can Sirchie's Live Scan Solution Do For You?*

Export Graphic Capability:

Our software offers the ability to save digital prints as BMP files which can be utilized outside of the Live Scan application for class presentations.

Print Capability & Flexibility:

Turn your digital files into paper prints with Live Scan's print functionality and save money with our flexible option of printing on regular copy paper.

IRIS Recognition:

Our cutting edge technology is ahead of current biometric capture requirements with the ability to do all FBI Next Generation Identification (NGI) biometrics including fingerprints, palm prints, iris capture, facial capture (mug shot), scars, marks, and tattoos, signature capture, and demographics.
