

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Revision date: 01/05/2015

Supersedes:01/19/2011

Version:

SECTION 1: Identification of the s	substance/mixture and of the company/undertaking		
1.1. Product identifier			
Product form	: Substance		
Substance name	: Blood Print Powder		
Product code	: BPD1		
1.2. Relevant identified uses of the s	ubstance or mixture and uses advised against		
Use of the substance/preparation	: Laboratory chemical		
1.3. Details of the supplier of the saf	ety data sheet		
SIRCHIE Finger Print Laboratories			
100 Hunter Place 27596 Youngsville, NC - USA			
T 919-554-2244; 800-356-7311 - F 919-554-	2266: 800-899-8181		
http://www.sirchie.com			
1.4. Emergency telephone number			
Emergency number	: 1.800.424.9300		
SECTION 2: Hazards identificatio			
2.1. Classification of the substance	or mixture		
Classification (GHS-US)			
Skin Irrit. 2 Eye Irrit. 2A	H315 H319		
STOT SE 3	H335		
2.2. Label elements			
GHS-US labeling			
Hazard pictograms (GHS-US)	: 🔥		
	GHS07		
Signal word (GHS-US)	: Warning		
Hazard statements (GHS-US)	: H315 - Causes skin irritation		
	H319 - Causes serious eye irritation H335 - May cause respiratory irritation		
Precautionary statements (GHS-US)	: P261 - Avoid breathing dust.		
r recationary statements (010-00)	P264 - Wash all exposed skin thoroughly after handling.		
	P271 - Use only outdoors or in a well-ventilated area		
	P280 - Wear eye protection, protective gloves. P302+P352 - IF ON SKIN: Wash with plenty of soap and water		
	P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing		
	P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact		
	lenses, if present and easy to do. Continue rinsing. P312 - Call a POISON CENTER/doctor//if you feel unwell		
	P321 - Specific treatment (see information on this label)		
	P332+P313 - If skin irritation occurs: Get medical advice/attention		
	P337+P313 - If eye irritation persists: Get medical advice/attention P362 - Take off contaminated clothing		
	P403+P233 - Store in a well-ventilated place. Keep container tightly closed		
	P405 - Store locked up		
	P501 - Dispose of contents/container to local/regional/national/international regulations.		
2.3. Other hazards	Name of the second s		
Other hazards not contributing to the classification	: None under normal conditions.		
2.4. Unknown acute toxicity (GHS U	S)		

No data available

Safety Data Sheet

advice (show the label where possible). First-aid measures after inhalation : Assure fresh air breathing. Allow the victim to rest. First-aid measures after skin contact : Remove affected clothing and wash all exposed skin area with mild soap and water, for by warm water rinse. First-aid measures after eye contact : Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or receptrist. First-aid measures after ingestion : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal us 4.3. Indication of any immediate medical attention and special treatment needed No additional information available : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Statable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting :	4.1. Description of first aid measure	25		
First-aid measures after skin contact : Remove affected clothing and wash all exposed skin area with mild soap and water, for by warm water rinse. First-aid measures after eye contact : Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or receptions. First-aid measures after ingestion : Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or receptions. 4.2. Most important symptoms and effects, both acute and delayed . Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal us additional information available SECTION 5: Firefighting measures . 5.1. Extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Jusuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture . Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment and emergency procedures State of firefighting : Do not enter fire area without proper protective equipment, including respirator	First-aid measures general			If you feel unwell, seek medical
by warm water rinse. First-aid measures after eye contact : Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or recorrections after ingestion : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal use 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Jusuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 5.1. Personal precautions, protective equipment and emergency procedures	First-aid measures after inhalation	: Assure fresh air breathing. Allow the victim to rest.		
persist. First-aid measures after ingestion : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. 1.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal us 1.3. Indication of any immediate medical attention and special treatment needed No additional information available Section 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Jusuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 6.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment, including respiratory protective sections, protective equipment and emergency procedures	First-aid measures after skin contact		all exposed skin area	with mild soap and water, followe
4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal us 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media Suitable extinguishing media . Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protections SECTION 6: Accidental release measures 5.1. Personal precautions, protective equipment and emergency procedures				tention if pain, blinking or redness
Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal us 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective securities equipment, including respiratory protections SECTION 6: Accidental release measures 6.1. 6.1. Personal precautions, protective equipment and emergency procedures	irst-aid measures after ingestion : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.			y medical attention.
4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Junsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protections SECTION 6: Accidental release measures 5.1. 6.1. Personal precautions, protective equipment and emergency procedures	4.2. Most important symptoms and	· · · · · · · · · · · · · · · · · · ·		
No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Acccidental release measures 5.1. Personal precautions, protective equipment and emergency procedures	Symptoms/injuries	: Not expected to present a significant	hazard under anticip	pated conditions of normal use.
SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Jnsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures	4.3. Indication of any immediate me	dical attention and special treatment need	ed	
5.1. Extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Suitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protections SECTION 6: Accidental release measures 5.1. Personal precautions, protective equipment and emergency procedures	No additional information available			
Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment, including respiratory protective equipment, including respiratory protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures	SECTION 5: Firefighting measure	es		
Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below. 5.3. Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures	Reactivity	: No reactivity hazard other than the effective that the effective terms of the terms of ter	fects described in su	b-sections below.
chemical fire. Avoid (reject) fire-fighting water to enter environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures	5.3. Advice for firefighters			
SECTION 6: Accidental release measures 5.1. Personal precautions, protective equipment and emergency procedures	Firefighting instructions			
6.1. Personal precautions, protective equipment and emergency procedures	Protection during firefighting	: Do not enter fire area without proper	protective equipmen	t, including respiratory protection.
	SECTION 6: Accidental release r	neasures		
6.1.1. For non-emergency personnel	6.1. Personal precautions, protectiv	e equipment and emergency procedures		
	6.1.1. For non-emergency personnel			

Emergency procedures		:	Evacuate unnecessary personnel.
0			
6.1.2.	For emergency responders		
Protectiv	/e equipment	:	Equip cleanup crew with proper protection.
Emerge	ncy procedures	•	Ventilate area.
6.2.	Environmental precautions		

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

6.3. Methods and material for containment and cleaning up

: On land, sweep or shovel into suitable containers. Minimize generation of dust. Store away from other materials.

6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling	: Wash hands and other exposed areas with mild soap and water before eat, drink or smoke and when leaving work. Provide good ventilation in process area to prevent formation of vapor.
7.2. Conditions for safe storage, includ	ing any incompatibilities
Storage conditions	: Keep only in the original container in a cool, well ventilated place away from : Keep container closed when not in use.
Incompatible products	: Strong bases. strong acids.
Incompatible materials	: Sources of ignition. Direct sunlight.
7.3. Specific end use(s)	
No additional information available	
SECTION 8: Exposure controls/per	sonal protection
8.1. Control parameters	
8.2. Exposure controls	
Personal protective equipment	: Avoid all unnecessary exposure. Dust formation: dust mask. Gloves. Safety glasses.
Hand protection	: Wear protective gloves.
Eye protection	: Chemical goggles or safety glasses.
Respiratory protection	: Wear approved mask.
Other information	: When using, do not eat, drink or smoke.
SECTION 9: Physical and chemical	properties
9.1. Information on basic physical and	
Physical state	: Solid
Appearance	: Powders.
Color	: White to light yellow.
Odor	: odorless.
Odor threshold	: No data available
рН	: No data available
Relative evaporation rate (butyl acetate=1)	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Self ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapor pressure	: No data available
Relative vapor density at 20 °C	: No data available
Relative density	: No data available
Solubility	: Soluble in water.
Log Pow	: No data available
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	No data available
Explosive properties	: No data available
Oxidizing properties	: No data available
Explosive limits	: No data available
9.2. Other information	

9.2. Other information

No additional information available

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 10: Stability and reactivi	ty		
10.1. Reactivity			
No reactivity hazard other than the effects described in sub-sections below.			
10.2. Chemical stability			
Stable under recommended handling and sto	rage conditions (see section 7).		
10.3. Possibility of hazardous reaction	S		
No reactivity hazard other than the effects described in sub-sections below.			
10.4. Conditions to avoid			
Direct sunlight. Extremely high or low temperatures.			
10.5. Incompatible materials			
strong acids. Strong bases.			
10.6. Hazardous decomposition produ	cts		
fume. Carbon monoxide. Carbon dioxide.			
SECTION 11: Toxicological inform	ation		
11.1. Information on toxicological effect	cts		
Acute toxicity	: Not classified		
Skin corrosion/irritation	: Causes skin irritation.		
Serious eye damage/irritation	: Causes serious eye irritation.		
Respiratory or skin sensitization	: Not classified		
Germ cell mutagenicity	: Not classifiedBased on available data, the classification criteria are not met		
Carcinogenicity	: Not classified		
Reproductive toxicity	: Not classifiedBased on available data, the classification criteria are not met		
Specific target organ toxicity (single exposure	e) : May cause respiratory irritation.		
Specific target organ toxicity (repeated exposure)	: Not classifiedBased on available data, the classification criteria are not met		
Aspiration hazard	: Not classifiedBased on available data, the classification criteria are not met		
Potential Adverse human health effects and symptoms	: Based on available data, the classification criteria are not met.		
SECTION 12: Ecological informati	on		
12.1. Toxicity			

No additional information available

12.2. Persistence and degradability		
Blood Print Powder		
Persistence and degradability Not established.		
3,3',5,5'-tetramethylbenzidine (54827-17-7)		
Persistence and degradability	Biodegradability in water: no data available.	
12.3. Bioaccumulative potential		
Blood Print Powder		
Bioaccumulative potential Not established.		
3,3',5,5'-tetramethylbenzidine (54827-17-7)		
Bioaccumulative potential	No bioaccumulation data available.	
12.4. Mobility in soil		
No additional information available		
12.5. Other adverse effects		
Other information :	Avoid release to the environment.	
SECTION 13: Disposal considerations		
13.1. Waste treatment methods		
Waste disposal recommendations : Dispose in a safe manner in accordance with local/national regulations.		
Ecology - waste materials : Avoid release to the environment.		

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 14: Transport information				
In accordance with ADR / RID / ADNR / IMDG / ICAO / IATA				
14.1. UN number				
Not applicable				
14.2. UN proper shipping name				
Not applicable				
14.3. Additional information				
Other information : No supplementary information available.				
Overland transport				
No additional information available				
Transport by sea No additional information available				
Air transport No additional information available				
SECTION 15: Regulatory information				
15.1. US Federal regulations				
15.1. US Federal regulations Blood Print Powder				
Listed on SARA Section 313 (Specific toxic chemical listings)				
Listed on the United States TSCA (Toxic Substances Control Act) inventory				
15.2. International regulations				
CANADA				
No additional information available				
EU-Regulations				
No additional information available				
Classification according to Regulation (EC) No. 1272/2008 [CLP]				
Not classified				
Classification according to Directive 67/548/EEC or 1990/45/EC				
Classification according to Directive 67/548/EEC or 1999/45/EC Not classified				
15.2.2. National regulations				
No additional information available				

15.3. US State regulations

No additional information available

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECT	TION 16: Other information			
Indicat	ion of changes	: Revision - See : *.		
Data s	ources	REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.		
Trainin	g advice : Normal use of this product shall imply use in accordance with the instructions on the packag Keep in tightly closed container. Keep cool and dry. Avoid all ignition sources - heat, open flame, sparks. Avoid incompatible materials. Avoid dust creation and accumulation. Avoid inhalation and ingestion. Avoid contact with eyes. Wash thoroughly after handling.		container. Keep cool and dry. Avoid all ignition sources - heat, open ncompatible materials. Avoid dust creation and accumulation. Avoid	
Other i	information	: This Safety Data Sheet has been established in accordance with the applicable European Union legislation.		
Full tex	xt of H-phrases: see section 16:			
	Eye Irrit. 2A		Serious eye damage/eye irritation Category 2A	
	Skin Irrit. 2		skin corrosion/irritation Category 2	
	STOT SE 3		Specific target organ toxicity (single exposure) Category 3	
	H315		Causes skin irritation	
	H319		Causes serious eye irritation	
	H335		May cause respiratory irritation	
NFPA	health hazard fire hazard reactivity	 3 - Short exposure could cause serious temporary or residual injury even though prompt medical attention was given. 1 - Must be preheated before ignition can occur. 1 - Normally stable, but can become unstable at elevated temperatures and pressures or may react with water with some release of energy, but not violently. 		
HMIS I Health	III Rating	: 3 Serious Hazard - M given	Najor injury likely unless prompt action is taken and medical treatment is	
Flamm	ibility : 1 Slight Hazard			
Physic	ical : 1 Slight Hazard			
Persor	nal Protection	: E
