

LTF100S Laser Hazer (Artificial Smoke) Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 1: Identification			
1.1. Identification			
	Mixture		
	LTF100S Laser Hazer (Artificial Smoke)		
Product code :	LTF100S		
1.2. Relevant identified uses of the substant	nce or mixture and uses advised against		
Use of the substance/mixture :	Crime Scene Investigation		
1.3. Details of the supplier of the safety date	ta sheet		
SIRCHIE 100 Hunter Place Youngsville, NC 27596 - USA T 919-554-2244; 800-356-7311 - F 919-554-2266; http://www.sirchie.com	800-899-8181		
1.4. Emergency telephone number			
Emergency number :	1.800.424.9300 CHEMTREC: 1.800.424.9300		
SECTION 2: Hazard(s) identification			
2.1. Classification of the substance or mix	ture		
GHS-US classification			
Not classified			
2.2. Label elements			
GHS-US labeling			
No labeling applicable			
2.3. Other hazards			
Other hazards not contributing to the : classification	None under normal conditions.		
2.4. Unknown acute toxicity (GHS US)			
Not applicable			
SECTION 3: Composition/Information	on ingredients		
3.1. Substance			
Not applicable			
3.2. Mixture			
Name	Product identifier	%	GHS-US classification
Petroleum gases, liquefied, sweetened	(CAS No) 68476-86-8	< 80	Not classified
white mineral oil (petroleum)	(CAS No) 8042-47-5	> 20	Not classified
Full text of H-phrases: see section 16			
SECTION 4: First aid measures			
4.1. Description of first aid measures			
	Never give anything by mouth to an unconsci advice (show the label where possible).	ous person. If y	ou feel unwell, seek medical
First-aid measures after inhalation :	Allow victim to breathe fresh air. Allow the vic	tim to rest.	
First-aid measures after skin contact :	Remove affected clothing and wash all exposed by warm water rinse.	ed skin area wi	th mild soap and water, followed
First-aid measures after eye contact :	· · · · · · · · · · · · · · · · · · ·		
First-aid measures after ingestion :	Rinse mouth. Do NOT induce vomiting. Obta	in emergency m	edical attention.
4.2. Most important symptoms and effects	, both acute and delayed		
Symptoms/injuries :	Not expected to present a significant hazard	under anticipate	d conditions of normal use.

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

5.1. Extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Jusuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections bekees 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including responsed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. SECTION 6: Acctidental release measures 5.1. 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 5.2. Environmental precautions Prevent entry to severs and public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as or spillage. Store away from other materials.	
SECTION 5: Firefighting media 5.1. Extinguishing media Suitable extinguishing media Suitable extinguishing media So not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections belows 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entening environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including responsed containers. SECTION 6: Accidental release measures Section 6: Accidental release measures 6.1.1. For non-emergency personnel : Evacuate unnecessary personnel. Emergency procedures : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to severs and public waters. Notify authorities if liquid enters severs or public waters. 6.3. Methods and material for containment and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as a spillage. Stoce way from other materials. 6.4. Reference to other sections : Weash hands and other exposed areas with mild soap and water before e smoking and when leaving work. Provide good ventiliation in process are of vapor. <td></td>	
5.1. Extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Jnsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections belows 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including responsed procedures 5.1.1. For emergency personnel Emergency procedures 5.1.2. For emergency responders : Equip cleanup crew with proper protection. Emergency procedures : Equip cleanup crew with proper protection. Environmental precautions Prevent entry to severs and public waters. Notify authorities if liquid enters severs or public waters. 6.3. Methods and material for containment and cleaning up Vertidate area. See Heading 8. Exposure controls and personal protection. 5.4. Reference to other sections States for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as a	
Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Water spray. Sand. Unsuitable extinguishing media : Do not use a heavy water stream. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections bekends S1 Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including registreamed the entry of the area without proper protective equipment, including registreamed the entry of the area without proper protection. SetTION 6: Accidental release measures 61.1. For non-emergency personnel Energency procedures : Evacuate unnecessary personnel. Set.1. For emergency responders : Ventilate area. Protective equipment : Equip cleanup crew with proper protection. Energency procedures : Ventilate area. 6.2. Environmental precautions : Ventilate area. 6.3. Methods and material for containment and cleaning up Methods, such as clay or diatomaceous earth as or spillage. Store away from other materials. 6.4. Reference to other sections : See Heandling Precautions for safe han	
Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections below 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respondences ESETION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as or spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8: Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before e smiking and when leaving work. Provide good ventilation in process are of vapor. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions : Storage storage, storage storage storage areas with mild soap and water before e smoking and when leaving work. Provide good ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible products : Strong bases. Strong acids. Incompatible products : Storage storage storage regination. Direct sunlight. SECTION 8: Exposure controls/personal protection 8.1. C	
5.2. Special hazards arising from the substance or mixture Reactivity : No reactivity hazard other than the effects described in sub-sections belows 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respondence of the section specific equipment and emergency procedures 6.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as sc spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling a	
Reactivity : No reactivity hazard other than the effects described in sub-sections bekends 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respondences 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as conspillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. : Storage conditions : Wash hands and other exposed areas with mild soap and water before e smoki	
5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respondences 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent firef age and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as as spillage. Store away from other materials. 6.4. Reference to other sections : Wash hands and other exposed areas with mild soap and water before e smoking and when leaving work. Provide good ventilation in process are of vapor. 7.1. Precautions for safe handling : Weep only in the original container in a cool, well ventilated place away for closed when not in use. Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Inc	
Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including responsed containers. Exercise caution chemical fire. Prevent fire-fighting water from entering environment. SECTION 6: Accidental release measures 6.1. For non-mergency personnel Emergency procedures Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. Store away from other exposed areas with mild soap and water before e smoking and when leaving work. Provide good ventilation in process are of vapor. 7.1. Precautions for safe handling : Wash hands and other exposed are	s below.
chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including rest SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections SECTION 7: Handling and storage 7.1. Precautions for safe handling Precutions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away fro closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlig	
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible moducts : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight.	
6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible materials : Storag bases. Strong bases. Strong bases. Strong bases. Including. Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. <t< td=""><td>g respiratory protection.</td></t<>	g respiratory protection.
6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Storing bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight.	
Emergency procedures Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment Equip cleanup crew with proper protection. Emergency procedures Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including any incompatibilities Storage conditions Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products Storing bases. Strong acids. Incompatible materials Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection Storage storage.	
6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Storig bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection	
Protective equipment Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before e smoking and when leaving work. Provide good ventilation in process are of vapor. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection 8.1.	
Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away from other use. Incompatible products : Storag bases. Strong acids. Incompatible products : Storage so of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection	
6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before earnow of vapor. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection	
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe handling Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Storing bases. Storing acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection	
6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection	
Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as so spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before e smoking and when leaving work. Provide good ventilation in process are of vapor. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Storing bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection 8.1. Control parameters	
6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe handling 2. Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection 8.1. Control parameters	
See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before easy smoking and when leaving work. Provide good ventilation in process are of vapor. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection 8.1. Control parameters	as soon as possible. Collect
SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe handling Wash hands and other exposed areas with mild soap and water before earnowing and when leaving work. Provide good ventilation in process are of vapor. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection 8.1. Control parameters	
7.1. Precautions for safe handling Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before ear smoking and when leaving work. Provide good ventilation in process are of vapor. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions : Keep only in the original container in a cool, well ventilated place away for closed when not in use. Incompatible products : Strong bases. Strong acids. Incompatible materials : Sources of ignition. Direct sunlight. SECTION 8: Exposure controls/personal protection 8.1. Control parameters	
Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before e smoking and when leaving work. Provide good ventilation in process are of vapor. 7.2. Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

8.2. Exposure controls	
Personal protective equipment	: Gas mask. Gloves. Safety glasses.
Hand protection	: Wear protective gloves.
Eye protection	: Chemical goggles or safety glasses.
Respiratory protection	: Wear appropriate mask.
Other information	: Do not eat, drink or smoke during use.
SECTION 9: Physical and chen	nical properties
9.1. Information on basic physica	al and chemical properties
Physical state	: Liquid
Appearance	: Clear, colorless liquid or gas at ambient temperatures.
Color	: Colorless
Odor	: hydrocarbon-like odor
Odor threshold	No data available
рН	: No data available
Melting point	: No data available

Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Relative evaporation rate (butyl acetate=1)	: No data available

: No data available
: No data available
 Insoluble in water. Water: Solubility in water of component(s) of the mixture : white mineral oil (petroleum): insoluble
: No data available
: No data available
: No data available

Decomposition temperature	: No data available
Viscosity	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available

Other information 9.2.

No additional information available

SECTI	ON 10: Stability and reactivity
10.1.	Reactivity
No react	tivity hazard other than the effects described in sub-sections below.
10.2.	Chemical stability
Stable u	nder recommended handling and storage conditions (see section 7).
10.3.	Possibility of hazardous reactions
No react	tivity hazard other than the effects described in sub-sections below.
10.4.	Conditions to avoid

Direct sunlight. Extremely high or low temperatures. Open flame. Sparks. Overheating.

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

10.5. In	compatible materials		
Strong acids	s. Strong bases.		
10.6. Ha	azardous decomposition products		
fume. Carbo	fume. Carbon monoxide. Carbon dioxide.		
SECTION	111: Toxicological information		
11.1. In	formation on toxicological effects		
Acute toxicit	ty : Not classified		

white mineral oil (petroleum) (8042-47-5)	
LD50 oral rat	> 5000 mg/kg body weight (Rat; Equivalent or similar to OECD 401; Experimental value)
LD50 dermal rabbit	> 2000 mg/kg body weight (Rabbit; Experimental value; Equivalent or similar to OECD 402)
LC50 inhalation rat (mg/l)	> 5 mg/l/4h (Rat; Experimental value)
Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitization	: Not classified
Germ cell mutagenicity	: Not classified
	Based on available data, the classification criteria are not met
Carcinogenicity	: Not classified
white mineral oil (petroleum) (8042-47-5)	
IARC group	3 - Not classifiable
IARC gloup	5 - Not classifiable
Reproductive toxicity	: Not classified
	Based on available data, the classification criteria are not met
Specific target organ toxicity (single exposure)	: Not classified
Specific target organ toxicity (repeated	: Not classified
exposure)	
Aspiration hazard	: Not classified
Potential Adverse human health effects and	: Based on available data, the classification criteria are not met.
symptoms	

SECTION 12: Ecological information

^{12.1.} Toxicity

white mineral oil (petroleum) (8042-47-5)	
LC50 fish 1	> 100 mg/l (LC50; OECD 203: Fish, Acute Toxicity Test; 96 h; Oncorhynchus mykiss; Static system; Fresh water; Experimental value)
EC50 Daphnia 1	> 100 mg/l (LC50; OECD 202: Daphnia sp. Acute Immobilisation Test; 48 h; Daphnia magna; Static system; Fresh water; Experimental value)
Threshold limit algae 1	>= 100 mg/l (NOEL; OECD 201: Alga, Growth Inhibition Test; 72 h; Pseudokirchneriella subcapitata; Static system; Fresh water; Weight of evidence)

12.2. Persistence and degradability	
LTF100S Laser Hazer (Artificial Smoke)	
Persistence and degradability	Not established.
white mineral oil (petroleum) (8042-47-5)	
Persistence and degradability	Not readily biodegradable in water. Adsorbs into the soil.

12.3. Bioaccumulative potential		
LTF100S Laser Hazer (Artificial Smoke)		
Not established.		
white mineral oil (petroleum) (8042-47-5)		
> 6 (Calculated)		
High potential for bioaccumulation (Log Kow > 5).		

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

March 26, 2012 / Rules and Regulations	
: No known ecological damage caused by this product.	
: Avoid release to the environment.	
SECTION 13: Disposal considerations	
: Dispose in a safe manner in accordance with local/national regulations.	
: Avoid release to the environment.	
SECTION 14: Transport information	
LINAGEO Astrophy (ELANMADI E CAO) of	
: UN1950 Aerosols, flammable (FLAMMABLE GAS), 2.1	
: UN1950	
: Aerosols, flammable	
FLAMMABLE GAS	
: 2.1 - Class 2.1 - Flammable gas 49 CFR 173.115	
: 2.1 - Flammable gas	
2	
: No supplementary information available.	
: UN1950	
: Aerosols, flammable	
: 2.1 - Gases : Flammable	
: II - Medium Danger	
SECTION 15: Regulatory information	
15.1. US Federal regulations	
LTF100S Laser Hazer (Artificial Smoke)	
Listed on the United States TSCA (Toxic Substances Control Act) inventory	

15.2. International regulations

CANADA No additional information available

EU-Regulations No additional information available

National regulations No additional information available

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

15.3. US State regulations

No additional information available

SECTION 16: Other information	
Data sources	: REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.
Training advice	: Normal use of this product shall imply use in accordance with the instructions on the packaging. Keep in tightly closed container. Keep cool and dry. Avoid all ignition sources - heat, open flame, sparks. Avoid incompatible materials. Avoid dust creation and accumulation. Avoid inhalation and ingestion. Avoid contact with eyes. Wash thoroughly after handling.
Other information	: None.
NFPA health hazard	: 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.
NFPA fire hazard	: 4 - Will rapidly or completely vaporize at normal pressure and temperature, or is readily dispersed in air and will burn readily.
NFPA reactivity	: 1 - Normally stable, but can become unstable at elevated temperatures and pressures or may react with water with some release of energy, but not violently.
HMIS III Rating	
Health	: 1 Slight Hazard - Irritation or minor reversible injury possible
Flammability	: 4 Severe Hazard - Flammable gases, or very volatile flammable liquids with flash points below 73 F, and boiling points below 100 F. Materials may ignite spontaneously with air. (Class IA)
Physical	: 1 Slight Hazard - Materials that are normally stable but can become unstable (self-react) at high temperatures and pressures. Materials may react non-violently with water or undergo hazardous polymerization in the absence of inhibitors.
Personal Protection	: G G - Safety glasses, Gloves, Vapor respirator
